Arrive at Nashville 5 A.M. and 2 P.M.

The Mail for the Eastern and Southern Cities close at 4 P.M. and for Way-offices at 8 P.M.

R. H. ANDERSON, F. M.

GRAND MASS MEETING OF THE AMERICAN PARTY.

AMERICANS, PICK YOUR FLINTS!

A GRAND MASS MEETING OF THE AMERICAN PAR-

TY OF THE EASTERN AND SOUTHERN COUNTIES, will be held at the

COURT-HOUSE IN THE CITY ON SATURDAY, THE 20th INST.

The City and surrounding counties, will be present.

The American party especially, turn out masses.

SATURDAY MORNING, AUG. 18.

THE WEATHER.—Yesterday was another rainy day at least the first half of it. It cleared off quite cool and comfortable in the evening.

RIVER NEWS.—The Cumberland was falling slowly yesterday, with 7½ feet on Harpeth Shoals.

The *Alida* from Paducah, was the only boat up. None of the boats from above had come down at 8 P.M.

A. W. FRANCISCO, Esq.—We are pleased to learn from a copy of the Cincinnati *Columbian and Great West*, that our young and talented friend whose name heads this paragraph, has become connected with that paper. The proprietors of the *Columbian* are fortunate in securing the services of "ANDY". His long experience in the newspaper business, his Altitude, together with his versatility as a writer, cannot fail to add largely to the interest and acceptability of any paper with which he is connected.

BANK LOCATED.—Major HUBBARD has selected a location on Market street, next door to the Protection Insurance office, for the "CENTRAL BANK". The heavy business interests of that locality require Banking accommodations, and we have no doubt the location will be found an excellent one. We notice persons are engaged in fitting up the rooms.

CHILD'S GRAIN SEPARATOR.—We had an opportunity yesterday of witnessing the operation of this machine at the warehouse of A. Hamilton. It seems to us to admirably answer the purpose designed, and is certainly one of the most ingeniously contrived machines we have ever seen. With it wheat can be thoroughly cleaned, sifted, cockled, sunned and all foreign substances, and so nice and discriminating is its power that the light wheat can be separated from the heavy, and by this means a selection can made of the very best for seed.

Tennessee wheat is at this time attracting considerable attention in the Eastern markets. It has been universally complimented for its quality, and only objected to on the ground that it is indifferently prepared for market.

First impressions are most lasting, and it becomes important to Tennessee wheat growers to avail themselves of every facility to place their wheat in a market in the most attractive manner possible. We have no doubt that from ten to twenty per cent would be added to the market value of any lot of wheat not properly cleaned, by running it through this machine.

The proprietors are manufacturing large and small machines—one adapted to mills, and the other for farm use. Persons desirous of seeing the operations of the Separator can do so by calling at Hamilton's College street front.

MILITARY BALL AND SUPPER.—The meeting of the ladies of Old Fellow's Hall on Thursday evening to make arrangements for the supper to the "American Guards" was well attended. Mrs. R. H. McEvin was called to the chair, and the meeting resolved to give a supper to the American Guards on the 30th inst., and appointed the necessary committees to solicit subscriptions for the same.

The "Guards" will give a ball on the same night in connection with the supper. Altogether the affair promises to be well gotten up, and will, no doubt, secure a brilliant attendance.

Bunker Hill No. 3.

The members of Bunker Hill Council No. 3, are requested to meet at the Hall in the lower end of the Market House on Monday night the 20th Inst.

A full attendance is expected, as business in portance will be transacted.

The members of the Order residing in the 2nd Ward are particularly requested to be present.

NEW YORK, Aug. 15.

Ex Governor Hunt published a long letter in the Common Advertiser in opposition to the fusion movement in this State.

Three deaths from yellow fever have occurred on board the sloop of war Falmouth, now lying at quarantine.

We learn that within the last two days three cases of yellow fever have originated on the steamer Logmar, lying up at the mouth of Wolf river. One of the cases terminated fatally yesterday. We state these facts with the view of giving the public the watch, and of keeping down exaggerated rumors.

The other two cases of yellow fever, as far as we are informed, are still under observation, and are progressing favorably.

As we have no information to the contrary, we hope that they will be well gotten up, and will, no doubt, secure a brilliant attendance.
